In Part I of the newest addition to our popular Advanced Myofascial Techniques series, you'll learn hands-on advanced myofascial techniques that dramatically improve your ability to work with the rib cage and related structures such as the spine, diaphragm and mediastinum. Part I will increase your effectiveness when working with rib pain and injuries, ligament and joint conditions, respiratory issues, surgery recovery, thoracic stability, postural issues, and movement limitations.

Preparation: completion of our Spine, Rib, & Low Back or Scoliosis courses (via seminar or DVD) is suggested (though not required) preparation for this course. Order the DVDs at a discount during your registration.
