In one of the newest addition to the popular Advanced Myofascial Techniques series, you'll learn hands-on advanced myofascial techniques that dramatically improve your ability to work with the rib cage and related structures such as the spine, diaphragm and mediastinum. Increase your effectiveness when working with rib pain and injuries, ligament and joint conditions, respiratory issues, surgery recovery, thoracic stability, postural issues, and movement limitations.

Preparation: completion of our Spine, Rib, & Low Back or Scoliosis course (via seminar or DVD) is suggested (though not required) preparation for this course. Order the DVDs at a discount during your registration.
